

# READY TO ASSEMBLE TWIN EAGLE KITS

Big, open, cozy and custom. That is what you can expect from our custom log home kits. With over 45 years of experience in the log & timber industry, Artisan Log Homes builds high quality, energy efficient and sustainable buildings for our clients.

We value all of our customers and enjoy the long-standing relationships that are formed during construction.

We look forward to building your new log home or cabin.

“We are so thankful for the opportunity to work with Artisan Log & Timber Homes! As a family business, we appreciate working with other family businesses - Josh and his team bring a dedication to craft and quality that is second to none! Artisan is active in the community and always goes above and beyond in every job they tackle. They are consummate professionals - while still being the nicest folks to work with around! I recommend Artisan Log & Timber without hesitation! Their log and timber work is impeccable and they are our contractor of choice for beautiful log and timber work.”

Lesa Lacey, Lacey Construction
